i-Grade Gradebook		✓		22907	Category low scores can be dropped automatically. A teacher can configure each category to drop a specified number of low scores (each category can be configured to work differently), whether or not to include missing assignments, and what method to use to determine which low assignment to drop when varying "points possible" values are used on different assignments within the same category.

Module	User's Guide	Release Notes	Summary Only	CRF	Summary Description of Change
i-Grade Gradebook		✓		29603	<p>On the "Edit Multiple Assignments" form, a small pop-up window appears automatically next to each edit field; it displays the student name, current assignment name, assignment points possible, and due date.</p> <p>The same pop-up appears on the Class Summary Report, if the cursor hovers over any student score</p>
i-Grade Gradebook		✓		29608	<p>New links to all the sub menus now appear on every page, in the top right-hand corner</p> <p>A blank roster can now be accessed and printed from the assignments menu</p> <p>The category setup for one class can now be copied to another class before any assignments have been created for the "destination" class</p>
i-Grade Gradebook		✓		32377	<p>For classes that span multiple terms, a cross-term grade report is created automatically. This view only appears for classes that span multiple terms. To view this page, select Report For All Terms on the class summary page.</p> <p>For any class that spans multiple terms, an option to create a cross-term Final Exam assignment is automatically made available. For classes that span only one term, this option does not appear. In that case, a teacher can simply create a final exam category and assignment. Clicking the Add Final Exam link gives the teacher a modified assignment definition form.</p>
i-Grade Gradebook		✓		32380	<p>A school can now define a non-numeric score table, to be used instead of numeric scores. Each class can then be defined to use numeric scores, or non-numeric scores.</p>
i-Grade Gradebook		✓		32382	<p>Class and student overall comments can now be entered, and appear on all reports</p>
i-Grade Gradebook			✓	32384	<p>Assignment, class, and overall term statistics (mean, median, high and low scores, range, mode and standard deviation) can now be displayed</p>
i-Grade Gradebook		✓		33431	<p>On the "Edit Multiple Assignments" form and "Class Summary" Report, a teacher can filter the assignments so that only assignments due between two specified dates are displayed. Once the filter is applied, it is applied automatically to any other selected class, until turned off. Additionally, when the date filter is applied, each screen will display an additional calculated average and corresponding grade representing an average of only the filtered assignments.</p> <p>On the "Edit Multiple Assignments" form and "Class Summary" Report, teachers can also apply a filter to only display students who have a current or filtered assignment average between two values</p> <p>New submit options allow a teacher to submit filtered grades by date range, or for only students who have a calculated average between two specified values</p>
i-Grade Gradebook		✓		35314	<p>Fixed two issues related to copying assignments. Assignments are now copied in the original order they were created and a change was added to prevent a server timeout when copying assignments.</p>
